

Shaomin Tian Receives Carbon Asset Operator Certification

Dec. 12, 2021

Environmental Engineer, Ms. Shaomin Tian, at Hiray’s Department of Safety, Health & Environment, has been awarded the Carbon Asset Management Certificate, issued by China Carbon Trading Capacity Building Training Center and Hubei Carbon Emission Trading Center. Having successfully completed her training and passed the related exam, she is now a key member of Hiray’s Green Chemistry team.

Hiray Pharma Solutions provides quality CDMO services for big pharma & biotech companies internationally and engages in the health industry in a healthy way. We are committed to Green Chemistry with intelligent systems, low energy consumption, low emissions, and an excellent health and safety record.

Hiray’s staff understand that we are all responsible for mitigating global greenhouse warming in China and around the world. We believe that with our joint efforts, we at Hiray Pharma Solutions will do our part in achieving the goal of "carbon neutrality".
